

i5

PRO SPOT

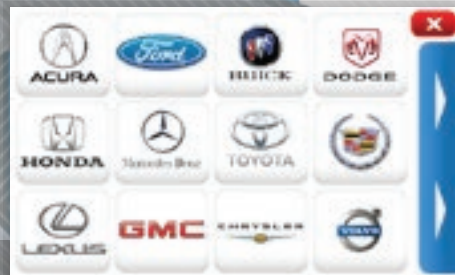

DESIGNED FOR NEW ADVANCED STEELS:
AHSS, HSS, T.R.I.P., BORON

DESIGNED FOR NEW ADVANCED STEELS:
WITH SMART WELD TECHNOLOGY

Auto-weld
Smart,
Very Smart

Over 4,000
OEM screens

Multiple
Languages

It measures, senses, and then welds every time regardless of metal, thickness or type.

Actual welds
made with the i5 in Auto Mode

Notice the consistency of the weld nuggets and the heat affected zone. The welds stay very consistent when welding 2 layers (2.4mm), 3 layers, 4 layers and 5 layers (6.0mm) as well as welding through boron steel. No weld settings were changed. The i5 automatically adjusted to the correct settings. **Smart, very smart.**

Auto Mode

While in AUTO mode the i5 measures metal thickness automatically using the latest optical technology. The i5 then senses the metals to be welded from a pre-delivered current to determine the type of metal. Based on the thickness and resistance feedback data the i5 delivers the correct weld power every time regardless of type of metal, thickness or corrosion protection between the metals.

The high resolution full color TOUCH screen display makes for easy navigation in your language of choice. The OEM section of the software features over 4000 OEM repair screens with weld data and repair recommendations from the car manufacturers. Data can be uploaded and downloaded via USB. The screen casing can be swiveled up to 270° for ease of viewing.

Two Sided Double-Acting Spot Welding Gun

Spot Gun Features

- » Double-Acting Cylinder
- » High squeeze pressure: > 1,000 lbs
Same pressure with all extension arm sizes.
- » Water-Cooled to the tips.
- » Self aligning electrodes. No adjustment needed after changing arms.
- » Wide-spreading electrodes for hard to reach areas.
- » X-Gun adaptive
- » Replaceable electrode caps

Double-Acting Spot Welding Gun

This great feature of the i5 spot gun allows the operator to reach over common (but hard to get to) weld areas with ease. Areas such as rear body panels, roof panels and radiator supports. Just push the top switch and the gun pneumatically spreads the tips apart to reach over the wide areas. Welders without this feature have to have the arm unbolted and physically moved. With the i5 no need to let go of your grip just push the button. **Smart, very smart.**

Available Arms

①

The Pro Spot i5 comes with a variety of extension arms to accommodate any welding job situation.

- | | |
|-----------------|-----------------|
| 1. (PSW-305) | 508mm U-arm |
| 2. (PSW-52-5/8) | Wheel house arm |
| 3. (PSW-302) | C-arm |

②

③

Welding with the Wheel House Arm makes it possible to weld in the most difficult areas.

For deeper needs use the Pro Spot extension U-Arms (508mm - 600mm). They are self aligning and quick to install.

Spot welding of quarter panel using C-Arm

SINGLE-SIDED WELDING ADAPTOR

The Single-Sided welding software comes pre-loaded with the i5 (Single Sided Adapter is optional)
Quick change between 2-sided and 1-sided welding.

- Single-Sided Welding
- Carbon Shrinking
- Stitch Welding
- Washer Welding
- Nail Welding
- Bolt and Nut Welding
- Moulding Clip Rivet Welding
- Contact Shrinking
- Spot Hammer
- Dent Pulling

Additional Accessories

Tool Balancer
M-285

Overhead Boom
and Boom Bracket

Weld Cover
80-0001

Tip Dresser
PLT-51
*Optional

i5 technical details

Input Voltage:	208 - 240v 50/60 hz 400 - 420v 50/60 hz 460 - 480v 50/60 hz
Welding Amperage:	14,500A max
Cable Length:	Input 30' (10m) weld cable 16' (5m)
Electrode Force:	1243lb. (565daN)
Liquid Cooling System:	Radiator / pump active loop cooled to the weld caps.
Microprocessor:	Upgradable software platform.
Protection:	IP 21
Patents (3):	no. 5,239,155 6,706,990 6,539,770
Weight:	314 lb (142 kg)
